

NEW HEIGHTS

NEW RUG BY MEG JOANNIDES FOR CHRISTOPHER FARR

Meg is one of a handful of designers working in the US today who really understands modern architecture and the subtle complexities of furnishing and enhancing beautifully conceived spaces.

CHRISTOPHER FARR | Founder and Creative Director, Christopher Farr Inc.

I have been an enormous fan of Christopher Farr since starting my business 16 years ago. I usually begin my design process from the floor upward, so in many cases I have found myself collaborating with CF and his staff to set the tone for the entire interior design scheme. We have brainstormed on several of my projects together and the results have always exceeded my expectations.

For *New Heights*, I was inspired by the imperfections I see while hiking in the hilly streets of my neighborhood. Cracked asphalt and concrete that might otherwise be thought of as faults become graphically beautiful to me.

MEG JOANNIDES | Interior Designer, MLK Studio
